As modern organizations become more globalized and diverse, they require additional assistance to maintain effective workflows. With the support of intermediary partners, businesses can enhance their various management processes. Global Intermediation and Logistics Service Providers is a comprehensive reference source for the latest scholarly material on outsourcing strategies in contemporary business environments and examines the role of intermediaries in the dynamics of decision-making and process management. Highlighting pivotal discussions across a myriad of relevant topics, such as open innovation, competitive advantage, and social capital, this book is ideally designed for professionals, practitioners, researchers, and students interested in the impact of service providers within industrial organizations.

" ... the 17th International Conference ... held ... in Pisa, Italy."--Pref.

The authorized history of the world's oldest and most storied foreign intelligence service, drawing extensively on hitherto secret documents Britain's Special Intelligence Service, commonly called MI6, is not only the oldest and most storied foreign intelligence unit in the world - it is also the only one to open its archives to an outside researcher. The result, in this authorized history, is an unprecedented and revelatory look at an organization that essentially created, over the course of two world wars, the modern craft of spying. Here are the true stories that inspired Ian Fleming's James Bond's novels and John le Carré George Smiley novels. Examining innovations from invisible ink and industrial-scale cryptography to dramatic setbacks like the Nazi sting operations to bag British operatives, this groundbreaking history is as engrossing as any thriller - and much more revealing. "Perhaps the most authentic account one will ever read about how intelligence really works." -The Washington Times
