AM:STARs Obesity
and Diabetes in the ...
Diabetes and obesity
are closely linked.
Charity Diabetes UK
states that obesity
accounts for between
80 and 85% of the
risk of developing
type 2 diabetes. The
charity notes that

Online Library

Am Stars

central obesity, having a large waistline, is a better predictor of type 2 diabetes than BMI values. Being obese raises the risk of developing type 2 diabetes.
