Cuban medical internationalism is the Cuban programme, started after the 1959 Cuban Revolution, of sending medical personnel overseas, particularly to Latin America, Africa and Oceania, and of bringing medical students and patients to Cuba. In 2007, Cuba had 42,000 workers in international collaborations in 103 different countries, of

extraordinary success ...

Medical internationalism is not a recent
phenomenon, and in fact can be traced back to
1960—when Cuba's first medical delegation
flew to Chile following a major earthquake
there.

The Cuban foreign policy during the Cold War which emphasized providing direct military assistance to friendly governments and resistance movements worldwide. This policy was justified directly by the Marxist concept of proletarian internationalism and was first articulated by Cuban dictator Fidel Castro at the Organization of Solidarity with the People of Asia, Africa and Latin America in 1966. However, as an informal policy it had been adopted as ea
