waiting for us to catch up, just waiting for us to begin using the energy that has always been available for our enjoyment and well-being.

Our world is in desperate need of emotionally healthy children who will have the confidence and resolve to contribute their talents to the world, making it a better place. The principles discussed in *Parenting from Your Soul* are based in spiritual ideology, challenging you to examine the role of parent from another perspective. Conscious choices made from this place can help us honor our children's individual path; appreciate the phases of our children's growth; open our hearts to give and receive a deeper level of love; practice forgiveness for others and ourselves; learn universal laws to create the life we want; and create relationships based on acceptance, honesty, and compassion. *Parenting from Your Soul* helps you guide your child to a life of happiness and purpose while assisting you in making positive changes in your own life. It offers information about transforming your relationship with your child, no matter his or her age. Applying this information can open up a new way to approach your role as parent and change the way you approach issues in your own life. The greatest gift we can give this planet is the creation of children who are able to live their lives with joy, purpose, and intention. You have the most instrumental role in this creation.

The lives we lead, particularly in the Western world, are technologically overburdened and spiritually impoverished. Our children can tell us the various merits of different operating systems for electronic devices, but are rarely in touch with how different emotions are experienced in the body, or how it feels to bring kindness to a moment of difficulty. They are bombarded almost constantly with information at a rate that mankind even 50 years ago would have struggled to begin to comprehend, and mental illness is at an all-time high. Research indicates that one of every four adolescents will have an episode of major depression during high school, with the average age of onset being 14 years of age. The human race is at a tipping point, and we have no sane choice but to begin to awaken the capacities within us that have too-long lain dormant. We can choose to lead a child towards awakening, and thus awaken ourselves.

There are a lot of gratitude books out there, but none quite like this, which comes with actual gifts: a sign, a totem, an answer, and a present from the natural world! Most of us believe we can think our way out of problems. We believe that if we just exert enough mental effort, we will pull up a solution to whatever ails us. And that has gotten us nowhere. So in this book, we're going to forget thinking . . . and start thanking. This playful but easy practice has the power to reconnect us with our true nature. When we observe the world from a place of gratitude, when we use our attention to spot beauty and gaze at wonder, we tune in to a frequency of magic. This joy channel is the most powerful on the planet and has the capability to radically change our lives. Brazen gratitude provides a portal—an entry point—straight into the heart of the field of infinite possibilities described in Pam Grout's bestseller *E-Squared*. It enables you to align with the spaciousness of the cosmic energy field, the spaciousness that makes your life a love-shining prism. Thanking puts you on an energetic frequency—a vibration—that calls in miracles and will make you rich (in spirit), happy, and madly in love (with life). This book also offers a different perspective on abundance, which is not just financial capital. It shows readers how to grow and expand creative capital, social capital, rip-roaring good times capital, and much, much more!
