A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.

Dante's Divine Comedy played a dual role in its relation to Italian Renaissance culture, actively shaping the fabric of that culture and, at the same time, being shaped by it. This productive relationship is examined in Commentary and Ideology, Deborah Parker's thorough compendium on the reception of Dante's chief work. By studying the social and historical circumstances under which commentaries on Dante were produced, the author clarifies the critical tradition of commentary and explains the ways in which this important body of material can be used in interpreting Dante's poem. Parker begins by tracing the criticism of Dante commentaries from the nineteenth century to the present and then examines the tradition of commentary from the Middle Ages to the Renaissance. She shows how the civic, institutional, and social commitments of commentators shaped their response to the Comedy, and how commentators tried to use the poem as an authoritative source for various kinds of social legitimation. Parker discusses how different commentators dealt with a deeply political section of the poem: the damnation of Brutus and Cassius. The scope and importance of Commentary and Ideology will command the attention of a broad group of scholars, including Italian specialists on Dante, late medievalists, students and professionals in early modern European literature, bibliographers, critical theorists, historians of literary criticism and theory, and cultural and intellectual historians.

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

Gender equality and the responsibility of husbands and fathers: issues that loom large today had currency in Renaissance Venice as well, as evidenced by the publication in 1600 of The Worth of Women by Moderata Fonte. Moderata Fonte was the pseudonym of Modesta Pozzo (1555-92), a Venetian woman who was something of an anomaly. Neither cloistered in a convent nor as liberated from prevailing codes of decorum as a courtesan might be, Pozzo was a respectable, married mother who produced literature in genres that were commonly considered "masculine"—the chivalric romance and the literary dialogue. This work takes the form of the latter, with Fonte creating a conversation among seven Venetian nobwomen. The dialogue explores nearly every aspect of women's experience in both theoretical and practical terms. These women, who differ in age and experience, take as their broad theme men's curious hostility toward women and possible cures for it. Through this witty and ambitious work, Fonte seeks to elevate women's status to that of men, arguing that women have the same innate abilities as men and, when similarly educated, prove their equals. Through this dialogue, Fonte provides a picture of the private and public lives of Renaissance women, ruminating on their roles in the home, in society, and in the arts. A fine example of Renaissance vernacular literature, this book is also a testament to the enduring issues that women face, including the attempt to reconcile femininity with ambition.

Sharp-witted and sharp-tongued, Arcangela Tarabotti (1604-52) yearned to be formally educated and enjoy an independent life in Venetian literary circles. But instead, at sixteen, her father forced her into a Benedictine convent. To protest her confinement, Tarabotti composed polemical works exposing the many injustices perpetrated against women of her day. Paternal Tyranny, the first of these works, is a fiery but carefully argued manifesto against the oppression of women by the Venetian patriarchy. Denouncing key misogynist texts of the era, Tarabotti shows how despicable it was for Venice, a republic that prided itself on its political liberties, to deprive its women of rights accorded even to foreigners. She accuses parents of treating convents as dumping grounds for disabled, illegitimate, or otherwise unwanted daughters. Finally, through compelling feminist readings of the Bible and other religious works, Tarabotti demonstrates that women are clearly men's equals in God's eyes. An avenging angel who dared to speak out for the rights of women nearly four centuries ago, Arcangela Tarabotti can now finally be heard.

First published in 1930, amidst the collapse of socialist ideals and the onset of fascism throughout parts of Europe, Liberal Socialism is a powerful and timely document on the ethics of political action. During his confinement for his anti-fascist beliefs, the Italian political philosopher Carlo Rosselli (1899-1937) wrote this work not only as a critique of fascism, but also as an investigation into the history of Marxism and the need for a liberal reformulation of socialism. In this first English- language edition, Nadia Urbinati highlights both the historical and theoretical importance of Liberal Socialism, which continued to inspire the anti-fascist movement "Giustizia e Libertà," long after Rosselli's assassination by Mussolini's agents, and which outlines a possible rebirth of the socialist and democratic movements. Rosselli's analysis provides an illuminating interpretation of the ideological crisis of Marxism, in its positivistic version, during the late nineteenth century and exposes the intellectual weakness of revisionist efforts to delineate new versions of Marx's doctrine. He encourages readers to view socialism as an ethical ideal and to consider whether Marxist or liberal methods combine better with socialism to achieve that ideal. Rosselli opts for a liberal socialism that avoids the shortcomings of uncontrolled laissez-faire but favors state intervention to secure public services and social rights. This volume brings us closer to the dynamics of the educational world, especially students, from a wide range of national and regional scenarios, with a special focus on Europe and Latin America. In this way, a plural panorama is shown, in which the stories centered on the usual protagonists of the 1968 processes are accompanied by other scenarios, often considered secondary, but which this volume inserts in a more general story that helps us understand how the processes of the 60s were not concrete or national, but got an absolute regional and global significance. We see a complex process of transnational demand that ranged from Eastern Europe, included in the Soviet bloc, to the very heart of the Western Hemisphere, with the United States as the main axis, passing through the politically varied Western Europe, submitted to the same processes and cultural influences. In this sense, to the works that deal with the United States and France, are added others focused on Italy, Spain and Brazil, as priority focus areas, together with other European and Latin American landscapes: Great Britain, Portugal, Greece, Slovakia, Hungary, Chile, Uruguay and Mexico, without missing, in addition, the case of one of the most unique actors on the international scene: the State of Israel. With this volume, we want to continue advancing in the knowledge of the educational world of the second half of the 20th century. Great are the challenges of this world at the beginning of the 21st century and many of them were already evident in 1968. Others have materialized as a result of those events. To confront both of them, we must first identify and analyze them, as well as being aware of their magnitude. We hope that all this work can contribute to this aim.
