A challenging new look at the great thinkers whose ideas have shaped our civilization From Socrates to Sartre presents a rousing and readable introduction to the lives, and times of the great philosophers. This thought-provoking book takes us from the inception of Western society in Plato's Athens to today when the commanding power of Marxism has captured one third of the world. T. Z. Lavine, Elton Professor of Philosophy at George Washington University, makes philosophy come alive with astonishing clarity to give us a deeper, more meaningful understanding of ourselves and our times. From Socrates to Sartre discusses Western philosophers in terms of the historical and intellectual environment which influenced them, and it connects their lasting ideas to the public and private choices we face in America today. From Socrates to Sartre formed the basis of from the PBS television series of the same name.

This book is addressed to the beginning student of philosophy, to the student in other disciplines who needs a concise presentation of philosophical ideas, and to interested members of the general reading public. The needs of these groups have promoted me to undertake the task in spite of the obvious pitfalls encountered in condensing the wealth of Western philosophical thought into one short volume.

Christian philosopher Kreeft (philosophy, Boston College) uses an imaginary dialogue between Socrates and Sartre to challenge the fundamental concepts of existentialist philosophy. The conversational style and non-technical language he employs serves to make the concepts discussed accessible to both students and general readers. Kreeft is also the

Let Gilligan's Island teach you about situational ethics. Learn about epistemology from The Brady Bunch. Explore Aristotle's Poetics by watching 24. Television has grappled with a wide range of philosophical conundrums. According to the networks, it's the ultimate source of all knowledge in the universe! So why not look to the small screen for answers to all of humanity's dilemmas? There's not a single issue discussed by the great thinkers of the past that hasn't been hashed out between commercials in shows like Mad Men and Leave It to Beaver. So fix yourself a snack, settle into the couch, grab the remote...and prepare to be enlightened.

Christian philosopher Kreeft (philosophy, Boston College) uses an imaginary dialogue between Socrates and Sartre to challenge the fundamental concepts of existentialist philosophy. The conversational style and non-technical language he employs serves to make the concepts discussed accessible to both students and general readers. Kreeft is also the

If you want to know your Socrates from your Sartre and your Confucius from your Kant, strap in for this whirlwind tour of the highlights of philosophy. Including accessible primers on: The early Ancient Greek

philosophers and the 'big three': Socrates, Plato and Aristotle Key schools of philosophy and their impact on modern life Insights into the main questions philosophers have explored over the years: Who am I? What is the meaning of life? Do I have free will? Practical applications for the theories of Descartes, Kant, Wollstonecraft, Marx, Nietzsche and many more. This illuminating little book will introduce you to the key thinkers, themes and theories you need to know to understand how human ideas have sculpted the world we live in and the way we think today.

From Socrates to Sartre, Avicenna to Angela Davis, this accessible guide will get you up to speed on the world's greatest minds and help you to think like them. You've heard of Plato, but do you understand his Theory of Forms? What does René Descartes' maxim 'I think, therefore I am' actually mean? And how is philosophy relevant to modern life? Drawing on the thoughts and words of iconic philosophers from the ancient world right through to the present day, each chapter deals with a specific philosophical theory. Explore the conflict between free will and determinism, the political concept of Machiavellianism, the difference between metaphysics and epistemology, and what dialectics actually is in this accessibly-written guide to the smartest minds in history.

"This concise, elegant essay on the roots and historical justification of philosophy marks a decisive step in posing the problem of what philosophy is. With consummate clarity and the charisma that distinguished him as a lecturer, Jos Ortega y Gasset re-creates "that moment when Parmenides began talking about something exceptionally strange, which he called 'being.'" How and why, he asks, did such a surprising adventure come about? Considering the human qualities that prompt a curiosity about existence and eternity, Ortega examines philosophy's etymology, its connection to poetry, and its differentiation from religion and other modes of thought. He lucidly delineates radical differences of doctrine and style among early Greek thinkers, especially the "madman of reason" Parmenides and the "absolute individual" Heraclitus. He also considers philosophy's fundamental task of revealing the latent world poised behind the manifest world and discovering the relations between them." "Unable to find lodging among the philosophies of the past," Ortega observes, "we have no choice but to attempt to construct one of our own." The Origin of Philosophy argues for the vital importance of philosophy as a human endeavor, even while noting that each generation of thought reveals the past as "a defunct world of errors."

This comprehensive, historically organized introduction to philosophy communicates the richness of the discipline and provides the student with a working knowledge of the development of Western philosophy. With a lively and approachable style it covers the principal contributions of Western civilization's most influential philosophers. It provides ample detail without complicating minutiae. The text covers all periods of philosophy, lists philosophers alphabetically and chronologically on the end-papers, and features an exceptional glossary of key concepts.
