1948 Harley Davidson FL Panhead. For the Harley Davidson factory, the year 1948 was a pivotal year. Their tried and true top of the line model, the Knucklehead, was being retired and a new generation of Big Twins were making their debut. In that year, the new Panhead was first introduced and it was also the last year for the trusty Springer front fork system to be offered on the FL's or EL's.

1948 Harley Davidson Panhead - Bator International

1948 is the first year of Harley Davidson's new engine design that would be dubbed the "panhead" referring to the pan shaped valve covers. Innovations of the new engine design included internal oiling to reduce oil leaks. Hydraulic valve lifters reduced valve train noise and maintained push rod adjustment. Aluminum cylinder heads for more efficient engine cooling.
