Pediatric Nurse Practitioner Certification Review Guide: Primary Care, Sixth Edition is an essential resource for nurses preparing to take certification examinations offered by the Pediatric Nursing Certification Board (PNCB) and the American Nurses Credentialing Center (ANCC). Completely updated and revised, it reflects the most current guidelines and standards of practice. The Sixth Edition includes new content on asthma, learning disabilities, mental and behavioral health problems, obesity, violence, substance abuse, and sexually transmitted infections. Also incorporated are the concept of health care homes or medical homes, providing culturally sensitive and competent care, and the use of complementary and alternative medicine (CAM).

The Certified Bariatric Nurse (CBN) designation was created by the American Society for Metabolic and Bariatric Surgery to fill the rapidly growing need for nurses specialized in the care of patients undergoing weight loss surgery. This book approaches this subject area to assist nurses interested in passing the CBN exam. It can also be used as a general resource for those interested in a comprehensive but concise review of the rapidly growing field of Bariatric Surgery. This would include medical students, residents, dietitians, and other allied health professionals. Dr. Marc Neff is a recognized expert in the field of Bariatric Surgery. In his current position, his hospital is fortunate to have several CBNs caring for the Bariatric patients. With his guidance, along with several nurses who successfully completed the CBN designation, the authors have created a concise, "quick hit" review of the material required to successfully pass the exam. The format is short chapters followed by 5-10 review questions with in-depth explanations. Where appropriate, graphics are provided to highlight the essential anatomy and surgical procedures. Questions are in multiple choice format to simulate the actual CBN exam.

Pediatric Nurse Practitioner Certification Review Guide: Primary Care has been developed especially for Pediatric Nurse Practitioners and Family Nurse Practitioners preparing to take certification examinations and as a reference in the practice setting. The text is divided into systems with an in-depth coverage of growth and development and health promotion and maintenance. The common disorders of the various body systems provide succinct summaries of definitions, etiology, signs and symptoms, clinical findings, differential diagnoses, diagnostic tests/findings, and management/treatment. The final chapter addresses PNP role development, current trends and health policy issues including topics such as credentialing, legal issues, legislation, reimbursement and delivery systems. Following each chapter are test questions, which are intended to serve as an introduction to the testing arena. In addition a bibliography is included for those who need a more in-depth discussion of the subject matter in each chapter.

Family Nurse Practitioner Certification Review is an ideal study guide for new and recertifying nurses preparing to take the Family Nurse Practitioner (FNP) certification exam administered by the American Nurses Credentialing Center (ANCC) and the American Academy of Nurse Practitioners Certification Program (AANPCP). Written by nurse practitioners, it offers up-to-date questions and answer rationales specific to FNP certification that reflect the most current guidelines. In addition, it offers a short theory review, clinical application of knowledge, and clinical skills. Also incorporated are ethical and legal considerations, scope of practice, and cultural sensitivity. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

PCCN Certification Review, Third Edition is the ideal study guide for nurses preparing to take the Progressive Care Certified Nurse (PCCN) exam administered by the American Association of Critical-Care Nurses (AACN). It includes more than 1,100 questions and comprehensive answers with rationales. The Third Edition has been updated and revised in all sections to reflect changes in the new PCCN test plan, including gerontological issues, cardiac surgery, pacemakers, infectious diseases, and palliative care.
