INTRODUCTORY COURSE | meaning in the Cambridge English ...

This course is aimed at those new to programming and provides an introduction to programming using Python. This course is probably unsuitable for those with programming experience, even if it is just in shell scripting or Matlab-like programs. Such individuals should try the “Python: Introduction for Programmers” course instead. By the end of this course, attendees should be able to write simple Python programs and to understand more complex Python programs written by others.

Python: Introduction for Absolute Beginners – IT Help and ...

NOTES. This unit provides a brief introduction to computer hardware and software. We have included this unit to help those who are teaching students with no computer background. However, any introductory course in the use of micro-computers is likely to have covered this material already. Binary notation is introduced here.

UNIT 3 - INTRODUCTION TO COMPUTERS

This course companion to the 'Introduction to Philosophy' course was written by the Edinburgh

David Tong: Quantum Field Theory

These lectures are designed to give students a gentle introduction to applied mathematics in their first term at Oxford, allowing time for both students and tutors to work on developing and polishing the skills necessary for the course. It will have an `A-level' feel to it, helping in the transition from school to university.
