Karl Schroeder is one of the new stars of hard SF. His novels, *Ventus* and *Permanence*, have established him as a new force in the field. Now he extends his reach into Larry Niven territory, returning to the same distant future in which *Ventus* was set, but employing a broader canvas, to tell the story of Teven

Coronal, a ringworld with a huge multiplicity of human civilizations. Brilliant but troubled Livia Kodaly is Teven's only hope against invaders both human and superhuman who would destroy its fragile ecologies and human diversity. Filled with action, ideas, and intellectual energy, Lady of Mazes is the hard SF novel of the year. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

From the acclaimed author of *The Trophy Child* comes a "superbly sinister" domestic thriller of false friendship and deadly betrayal (*Mystery Scene*). When her daughter falls ill while on a school trip overseas, Natty rushes to be by her side. And she's so relieved to have a friend like Eve, who offers to help her husband around the house in her absence. But when Natty returns home she discovers that Eve has taken to family life a little too well—and Sean has fallen in love with her. Confronted with the fact that her marriage wasn't as rock-solid as she thought, Natty attempts to put on a brave face and move forward. But no matter how hard she tries to pick herself up, her former friend is there to knock her down again. Then Natty receives an anonymous note that reveals Eve to be a serial mistress. She's done this before—and the consequences were fatal. Now Natty must navigate through a treacherous maze of secrets that jeopardizes her life and the safety of her loved ones. "Absorbing" —*Kirkus Reviews* "[A] genuine gift for psychological nuance." —*Publishers Weekly* "Daly's affinity for psychological intrigue shines . . . It will have readers wondering just how well they know their friends, and how secure their lives are." —*Mystery Scene*

Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (*Smithsonian*). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.

A Newbery Medal winning modern classic about a racially divided small town and a boy who runs. Jeffrey Lionel "Maniac" Magee might have lived a normal life if a freak accident hadn't made him an orphan. After living with his unhappy and uptight aunt and uncle for eight years, he decides to run--and not just run away, but run. This is where the myth of Maniac Magee begins, as he changes the lives of a racially divided small town with his amazing and legendary feats.
