SAP Library - NW - PI Overview

ABAP development style guidelines. These are intended to be guidelines and instructions on the use of SAP ABAP for programming in a business scenario. Style guidelines, as opposed to standards, are intended to guide the programmer, not dictate the only way to utilize a programming language. There may be cases where development professionals will need to deviate from these guidelines and that decision is left up to the developer.

SAP ABAP Development Style Guidelines | Advanced Solutions

It always helps to define development guidelines / naming conventions and adhere to them. ABAP CDS View development is not an exception. Development guidelines / Naming Conventions are not something set in stone. They need to make sense and meant to help rather than complicate life. So if you have better ideas, please share in comments.
