Starting a new career in your 30s, after investing so much in the previous path, may seem like a radical idea. A recent Indeed survey of American workers, however, showed that 49% of those surveyed had already made a dramatic career shift. An impressive 65% of those remaining were considering the jump. The average age of respondents was 39, meaning a substantial amount of those in their 30s had already altered their career path.
