We are all born into some story, with its particular background scenery, that affects our physical, emotional, social and spiritual growth. In the case of children of Holocaust survivors, the background story tends to be either a stifled mystery or overflowing with traumatic information. In the first case, the child may feel drained and in the second case overwhelmed.

They were Holocaust concentration camp survivors who met and married in their native Amsterdam after World War II. Rose and Louis Van Thyn's journeys carried them from the horrors of Auschwitz to life in a new country that gave them so much. Their story is one of resolve, redemption, inspiration and life's blessings.

They did not know each other before World War II, although they were from the same neighborhood in Amsterdam. Rose and Louis Van Thyn each endured Auschwitz and other Nazi concentration camps, were the only surviving members of their original families, lost their first spouses, and met and married after the war in Amsterdam. This is their story of survival, and a new life in the United States.

The first book-length study of the survival of Polish Jews in Stalin 's Soviet Union.

In a 1941 Nazi roundup of educated Poles, Stefan Budziaszek—newly graduated from medical school in Kraków—was incarcerated in the Krakow Montelupich Prison and transferred to the Auschwitz concentration camp in February 1942. German big businesses brutally exploited the cheap labor of prisoners in the camp, and workers were dying. In 1943, Stefan, now a functionary prisoner, was put in charge of the on-site prisoner hospital, which at the time was more like an infirmary staffed by well-connected but untrained prisoners. Stefan transformed this facility from just two barracks into a working hospital and outpatient facility that employed more than 40 prisoner doctors and served a population of 10,000 slave laborers.[KKJ1] Stefan and his staff developed the hospital by commandeering medication, surgical equipment, and even building materials, often from the so-called Canada warehouse filled with the effects of Holocaust victims. But where does seeking the cooperation of the Nazi concentration camp staff become collusion with Nazi genocide? How did physicians deal with debilitated patients who faced " selection " for transfer to the gas chambers? Auschwitz was a cauldron of competing agendas. Unexpectedly, ideological rivalry among prisoners themselves manifested itself as well. Prominent Holocaust witnesses Elie Wiesel and Primo Levi both sought treatment at this prisoner hospital. They, other patients, and hospital staff bear witness to the agency of prisoner doctors in an environment better known for death than survival.

Do you really need to pay that outstanding balance with the hospital? Do you know the differences between a nurse practitioner, a physician 's assistant, a physician, and a paramedic? Did you realize that not all hospitals can treat your stroke, heart attack, or trauma with equal speed and effectiveness? How should you negotiate and appeal a hospital charge? Can you do anything to minimize the medical mistakes that your provider might commit? In Prepare to Defend Yourself ... How to Navigate the Healthcare System and Escape with Your Life, Matthew Minson, a physician and disaster medicine and healthcare policy expert, pulls back the examination room curtain on the healthcare system, empowering patients and their families to become proactive and knowledgeable users of medical services. Written in a humorous, patient-friendly style and loaded with the author 's cartoons and other visual aids, this essential consumer 's guide to modern healthcare provides down-to-earth, accurate advice that any reader can use, whether preparing for surgery, dialing 911, or simply getting a prescription filled.

This book explores the Holocaust as a social process. Although the mass murder of European Jews was essentially the result of political-ideological decisions made by the Nazi state leadership, the events of the Holocaust were also part of a social dynamic. All European societies experienced developments that led to the social exclusion, persecution and murder of the continent 's Jews. This volume therefore questions Raul Hilberg 's category of the " bystander ". In societies where the political order expects citizens to endorse the exclusion of particular groups in the population, there cannot be any completely uninvolved bystanders. Instead, this book examines the multifarious forms of social action and behaviour connected with the Holocaust. It focuses on institutions and persons, helpers, co-perpetrators, facilitators and spectators, beneficiaries and profiteers, as well as Jewish victims and Jewish organisations trying to cope with the dynamics of exclusion and persecution.

In 1944, members of the Sonderkommando—the " special squads, " composed almost exclusively of Jewish prisoners, who ensured the smooth operation of the gas chambers and had firsthand knowledge of the extermination process—buried on the grounds of Auschwitz-Birkenau a series of remarkable eyewitness accounts of Nazi genocide. This careful and penetrating study examines anew these " Scrolls of Auschwitz, " which were gradually recovered, in damaged and fragmentary form, in the years following the camp 's liberation. It painstakingly reconstructs their historical context and textual content, revealing complex literary works that resist narrow moral judgment and engage difficult questions about the limits of testimony.
