This is a very rare opportunity not only to own one of the finest model racing yachts ever made but also a piece of the history the model was produced to commemorate. Yamaha Round the World Sailboat by Tamiya (Build & Discussion Thread) Welcome to the build log. There are several scattered threads on this boat but no build thread, so hopefully this will serve as a depository for not only a build of this beautiful model, but a place for discussion as well. As of today, my boat is on a UPS truck after being located on a shelf in a warehouse somewhere around Salt Lake City Utah.

Ultra rare Tamiya Yahama Round the World Yacht. Here we have a nearly mint condition unstarted and complete Tamiya Yahama Round the World racing yacht. I say nearly mint because the previous owner started the wooden stand/cradle and that was it. I disassembled the stand and did a complete inventory of the kit and confirmed every single piece is there with extensive photos to prove.
