The Body in Professional Practice, Learning and Education ...

How is the body implicated in understanding and researching professional practice, learning and education? Body/Practice is an extensive volume dedicated to exploring these and related questions, philosophically and empirically. It constitutes a rare but much needed reframing of scholarship relating to professional practice and its relation with professional learning and professional education more generally.

The Body in Professional Practice, Learning and Education: Body/Practice (Professional and Practice-based Learning Book 11) eBook: Bill Green, Nick Hopwood: Amazon.co.uk: Kindle Store

The Body in Professional Practice, Learning and Education ...

The body matters, in practice. How then might we think about the body in our work in and on professional practice, learning and education? What value is there in realising and articulating the notion of the professional practitioner as crucially embodied? Beyond that, what of conceiving of the professional practice field itself as a living corporate body?

The Body in Professional Practice, Learning and Education ...

The chapter re-introduces the concept of 'the body in practice' and in particular, the influence of the work of Schatzki on understanding the holistic intermingling of the body, mind and movement. The three dimensions of 'bodiness' as outlined by Schatzki are: being a body; having a body; and the 'presence' of the instrumental body. There is a critique of how Schatzki sees the body as part of the material 'lived' world and discussion on how the body is represented, and how ...

learning elearning: The body in professional practice ...

Professional bodies may set standards of ethics, performance, competence, insurance, training and so on that must be met to remain within the profession. These are typically set out in a code of conduct. Some professional designations are protected by law.

Professional practice - Designing Buildings Wiki

Professional practice Join the UK's largest union and professional body for nursing Whether you're a nurse, midwife, HCA, AP or student, you can get a huge range of benefits when you join the RCN.

Professional practice | Royal College of Nursing

However, in some countries, individuals may not be required by law to be qualified by such a professional body in order to practice, as is the case for accountancy in the United Kingdom (except for auditing and insolvency work which legally require qualification by a professional body). In such cases, qualification by the professional bodies is effectively still considered a prerequisite to ...

Profession - Wikipedia

A recent example: maintaining public confidence in the profession. This element played a role in the recent high-profile case of Dr Bawa-Garba who has been struck off following a court case in which she was found guilty of gross negligence manslaughter. At a fitness to practise tribunal, she was suspended from practising for 12 months.

Professional healthcare regulation in the UK explained

The Code presents the professional standards that nurses, midwives and nursing associates must uphold in order to be registered to practise in the UK. It is structured around four themes – prioritise people, practise effectively, preserve safety and promote professionalism and trust.

This module encompasses the knowledge, skills, experience and attitudes across four of the five domains of Good Scientific Practice, namely Professional Practice, Scientific Practice, Clinical Practice, Research and Development, and Clinical Leadership, but all other modules within this programme will contribute to embedding professional practice at the centre of the work of each trainee.This module will introduce and critically review the frameworks and academic literature underpinning ...

Curriculum Library

"Practising in a professional manner requires that individuals have skills, knowledge, values and attitudes appropriate to their role and responsibility within the setting. In addition, it requires regular reflection upon practice and engagement in supported, ongoing professional development." (Siolta, 2006)

Professional Practice in the Early Years

The RCN is a membership organisation of more than 450,000 registered nurses, midwives, nursing support workers and nursing students. We are both a professional body, carrying out work on nursing standards, education and practice, and a trade union. Our members work in a range of health care specialities and settings in the NHS and independent sectors.
