Belligerency, the condition of being in fact engaged in war. A nation is deemed a belligerent even when resorting to war in order to withstand or punish an aggressor. A declaration of war is not necessary to create a state of belligerency. For example, the United States and the People ' s Republic of China were belligerents during the Korean conflict, though both parties avoided characterizing the hostilities as war.

Belligerency | international law | Britannica

The law of belligerent occupation (which from now on we will refer to simply as the law of occupation) governs the relationship between the occupying power, on the one hand, and the wholly or partially occupied State and its inhabitants, including refugees and stateless persons, on the other. It is applicable only in international armed conflicts.

Military or belligerent occupation, often simply occupation, is effective provisional control by a ruling power over a territory, without a claim of formal sovereignty. The territory is then known as the occupied territory and the ruling power the occupant. Occupation is distinguished from annexation by its intended temporary nature, by its military nature, and by citizenship rights of the controlling power not being conferred upon the subjugated population. While an occupant may set up a formal

Military occupation - Wikipedia

' The law of war can no more wholly dispense with retaliation than can the law of nations, of which it is a branch. Yet civilised nations acknowledge retaliation as the sternest feature of war. A reckless enemy often leaves to his opponent no other means of securing himself against the repetition of barbarous outrage ' .
