With magnificent dioramic illustrations, Gilbert Ford captures the joy, creativity, and determination behind the invention of an iconic, one-of-a-kind toy: the Slinky! One day, a spring fell from the desk of Richard James, an engineer and a dreamer. Its coils took a walk...and so did Richard ' s imagination. He knew right away that he had stumbled onto something marvelous. With the help of his wife, Betty, Richard took this ordinary spring and turned it into a plaything. But it wasn ' t just any old trinket—it was a Slinky, and it would become one of the most popular toys in American history.

away that he had stumbled onto something marvelous. With the help of his wife, Betty, Richard took this ordinary spring and turned it into a plaything. But it wasn't just any old trinket—it was a Slinky, and it would become one of the most popular toys in American history.

It's a major publishing event! For nearly half a century, "The Marvelous Toy"--composed by the legendary singer/songwriter Tom Paxton--has enchanted children and adults alike. A simple tale about a mysterious, magical, and mystical toy that a father gives to his son--and that eventually gets passed down to the next generation--it celebrates a child's sense of wonder. The witty, evocative lyrics spark the imagination. No surprise, then, that the song has been recorded by countless major artists, from Peter, Paul, and Mary to the Chad Mitchell Trio to John Denver, and won legions of fans through the years. Paxton's marvelous song has finally become a stunning picture book, featuring incredible and wildly imaginative art by Steve Cox, illustrator of the award-winning PIGS MIGHT FLY. Parents, grandparents, friends, and family worldwide will remember this classic from their own youth--and joyfully share it with their own children.

Josephine "Billy" Delielle and Francis Clemens are happily married--just not to each other. Another Marvelous Thing is the story of their affair, from its fabulous inception to its inevitable end. Billy and Francis couldn't be more different, at least when it comes to age and disposition, but that doesn't prevent them from falling in love and settling into the easy rhythms of romance--phone calls every morning, rendezvous every weekday afternoon, the odd out-of-town escape--despite both still being very partial to their spouses. In interconnected stories, Laurie Colwin deftly reveals each character's point of view and examines, in razor-sharp detail, the "marvelous" and messy glory of modern love and the curious desires of the heart. This whirlwind romance, perfectly captured in Colwinesque frank and funny style, is firm proof that

opposites really do attract.

Ophelia, a timid eleven-year-old girl grieving her mother, suspends her disbelief in things non-scientific when a boy locked in the museum where her father is working asks her to help him complete an age-old mission.

A vibrant and eclectic collection from a stunningly mature young poet "The world—the time has come to say it, though the news will not be welcome to everyone—has no intention of abandoning enchantment altogether." Roberto Calasso's words in *Literature and the Gods* remind us that, in an age of reason, of mechanization, of alienation, of rote drudgery, we still seek out the transcendent, the marvelous. Ange Mlinko's luminous fourth collection is both a journey toward and the space of that very enchantment. *Marvelous Things Overheard* takes its title from a collection of ancient rumors about the lands of the Mediterranean. Mlinko, who lived at the American University of Beirut and traveled to Greece and Cyprus, has penned poems that seesaw between the life lived in those ancient and strife-torn places, and the life imagined through its literature: from *The Greek Anthology* to the *Mu'allaqat*. Throughout, Mlinko grapples with the passage of time on two levels: her own aging (alongside the growing up of her children) and the incontrovertible evidence of millennia of human habitation. This is an assured and revealing collection, one that readers will want to seek refuge in again and again.

From the author of *Let's Talk About Love* and *If It Makes You Happy*, this exuberant YA Novel follows six teens locked together in a mansion, contending for a life-changing cash prize in a competition run by a reclusive heiress. Everyone thinks they know Jewel Van Hanen. Heiress turned actress turned social media

darling who created the massively popular video-sharing app, Golden Rule. After mysteriously disappearing for a year, Jewel makes her dramatic return with an announcement: she has chosen a few lucky Golden Rule users to spend an unforgettable weekend at her private estate. But once they arrive, Jewel ingeniously flips the script: the guests are now players in an elaborate estate-wide game. And she ' s tailored every challenge and obstacle to test whether they have what it takes to win--at any cost. Told from the perspective of three dazzling players--Nicole: the new queen of Golden Rule; Luna: Jewel ' s biggest fan; and Stella: a brilliant outsider--this novel will charm its way into your heart and keep you guessing how it all ends because money isn ' t the only thing at stake. Praise for Let's Talk About Love: "This book is so charming and funny and bighearted. ... I recommend this one for fans of Rainbow Rowell's Fangirl and Sandhya Menon's When Dimple Met Rishi." —Becky Albertalli, author of Simon vs. the Homo Sapiens Agenda "Claire Kann makes an admirable debut with this milestone for ace visibility." —Entertainment Weekly

This year Rikki Ducornet is being presented with a lifetime achievement award by the American Academy of Arts and Letters for her beloved work as a novelist and essayist, but perhaps most of all for her work as a writer of short stories. In the tradition of Italo Calvino, Donald Barthelme, and Angela Carter, Ducornet creates modern-day fables filled with characters as complex and surprising as any in American short fiction. This landmark collection of new stories is generously illustrated by T. Motley, whose gritty, fantastical cartooning explores the same post-magical realism that has been the subject of Ducornet's distinguished career. "Rikki Ducornet is linguistically explosive . . . one of the most interesting American writers around." —The Nation "[Ducornet] writes like a stunned time-traveler, testifying in breathless fragments to exotic ages that have gone or never were. . . . It's startling and refreshing to encounter a writer whose work insists so relentlessly upon the magic of making tales." —Robert Chatain, Chicago Tribune "In the bizarre world of

Rikki Ducornet's fiction, laughter and terror hold hands in an uneasy truce and almost anything can happen." —Richard Burgin, Washington Post "It is high time that the U.S. discovered one of its foremost women novelists and accorded her the recognition that the ebullient quality of her imagination deserves." —American Book Review

Capturing an engineer ' s creative vision and mind for detail, this fully illustrated picture book biography sheds light on how the American inventor George Ferris defied gravity and seemingly impossible odds to invent the world ' s most iconic amusement park attraction, the Ferris wheel. A fun, fact-filled text by Kathryn Gibbs Davis combines with Gilbert Ford ' s dazzling full-color illustrations to transport readers to the 1893 World ' s Fair, where George Ferris and his big, wonderful wheel lifted passengers to the skies for the first time.

THE INSTANT #1 NEW YORK TIMES BESTSELLER “ Sparkling with mystery, humor and the uncanny, this is a fun read. But beneath its effervescent tone, more complex themes are at play. ” —San Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of Crash Course, Vlogbrothers, and SciShow—spins a sweeping, cinematic tale about a young woman who becomes an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone could have possibly imagined. The Carls just appeared. Roaming through New York City at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance and craftsmanship—like a ten-foot-tall Transformer wearing a suit of samurai armor—April and her best friend, Andy, make a video with it, which Andy uploads to YouTube. The next day, April wakes up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities around the world—from Beijing to Buenos Aires—and April,

as their first documentarian, finds herself at the center of an intense international media spotlight. Seizing the opportunity to make her mark on the world, April now has to deal with the consequences her new particular brand of fame has on her relationships, her safety, and her own identity. And all eyes are on April to figure out not just what the Carls are, but what they want from us. Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with big themes, including how the social internet is changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and how vilification and adoration spring for the same dehumanization that follows a life in the public eye. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and insightful novel of now.
