Social behavior. Two studies have indicated that dog behavior varied with their size, body weight and skull size. Play Dog-dog. Play between dogs usually involves several behaviors that are often seen in aggressive encounters, for example, nipping, biting and growling.

Dog behavior - Wikipedia

A socialized dog knows its place in the pack, while an anti-social dog does not. One of the ways that this can manifest itself is a dog that does not respect the space of other humans or animals, especially those in its own pack. These are the dogs that nudge humans to beg for food during meal time, or try to "herd" people or other animals in the house by circling behind them or pushing them.
