A philosophical look at the movie Inception and its brilliant metaphysical puzzles Is the top still spinning? Was it all a dream? In the world of Christopher Nolan's four-time Academy Award-winning movie, people can share one another's dreams and alter their beliefs and thoughts. Inception is a metaphysical heist film that raises more questions

than it answers: Can we know what is real? Can you be held morally responsible for what you do in dreams? What is the nature of dreams, and what do they tell us about the boundaries of "self" and "other"? From Plato to Aristotle and from Descartes to Hume, *Inception and Philosophy* draws from important philosophical minds to shed new light on the movie's captivating themes, including the one that everyone talks about: did the top fall down (and does it even matter)? Explores the movie's key questions and themes, including how we can tell if we're dreaming or awake, how to make sense of a paradox, and whether or not inception is possible Gives new insights into the nature of free will, time, dreams, and the unconscious mind Discusses different interpretations of the film, and

Why doesn't Batman just kill the Joker and end everyone's misery? Can we hold the Joker morally responsible for his actions? Is Batman better than Superman? If everyone followed Batman's example, would Gotham be a better place? What is the Tao of the Bat? Batman is one of the most complex characters ever to appear in comic books, graphic novels, and on

the big screen. What philosophical trials does this superhero confront in order to keep Gotham safe? Combing through seventy years of comic books, television shows, and movies, *Batman and Philosophy* explores how the Dark Knight grapples with ethical conundrums, moral responsibility, his identity crisis, the moral weight he carries to avenge his murdered parents, and much more. How does this caped crusader measure up against the teachings of Plato, Aristotle, Kant, Kierkegaard, and Lao Tzu?
