Designer babies are an extremely controversial topic (and no, I don't mean babies dressed in Gucci - although that's a different issue in itself). When we talk about 'designer babies', we mean babies genetically engineered in a laboratory, in vitro, for specially selected traits. The possibilities are endless; it can be used to reduce ...

Babies who are "designed" through a genetic modification process are called designer babies. You know that genes make us who we are. If the genes of an embryo are altered using technology, adding in desired characteristics and taking away the undesired ones, then the resulting embryo will have a genetic makeup that has been engineered through gene therapy.

The Flap Edition  
design brand FEIT is a crib that can be easily turned into a drawing table.

Design for babies | Dezeen  
A designer baby is a baby whose genetic makeup has been selected or altered, often to include a particular gene or to remove genes associated with a disease. This process usually involves analysing a wide range of human embryos to identify genes associated with particular diseases and characteristics, and selecting embryos that have the desired genetic makeup; a process known as ...
